RELAX IMMAGINA

RELAX IMMAGINA
height 2000 mm, lenght 600 mm. Matt White finish (cod. J8).
Design by Domenico De Palo

Technical features:
- radiating panel
- 1/2" Gas right threading
- maximum working pressure 4 bar
- maximum working temperature 95°C

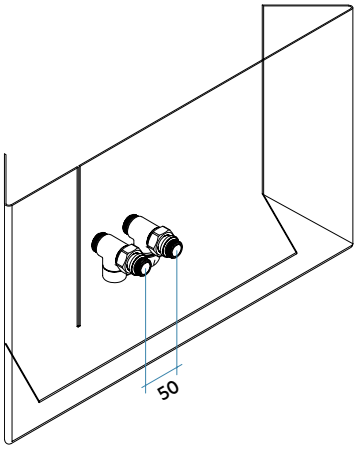
Price included:
- valve unit complete with couplings for copper (diameters 12, 14 and 15 mm) and multilayer (14 thick 2 and 16 thick 2)
- 4 wall supports
- LED lighting system optional
- air vent

Finishes available	Surcharge
Special finishes	
Other RAL colors	

Finishing codes see page 596.

RELAX IMMAGINA with led:
Represents the ideal combination of artistic design and colour effect, thanks to the wireless remote control it is possible to choose between a vast range of colours.

Hidden hydraulic connection INCLUDED IN THE PRICE



RELAX IMMAGINA features the innovative hidden hydraulic connection system.
This type of connection hides all valves from view to the advantage of the heating element's formal aspect.
Another winning feature of this type of hydraulic connection is its easy installation, thanks to the 50 mm pitch valve assembly pre-assembled and tested directly by IRSAP.
The concealed hydraulic connection with universal connection M30 x 1.5 is thus already prepared for the installation of a thermostatic head (optional).

(*) Thanks to the high performance of Irsap RELAX IMMAGINA radiators, the ideal Δt for low temperature projects is Δt at 30°C.
For Δt different from 50°C use the formula: $Q=Qn\ (\Delta t / 50)^n$
